

MEAD FAMILY FOUNDATION

Annual Grants Report

Released: January 30, 2009

The Mead Family Foundation is proud to report on its grants from 2008. Grants went primarily to organizations working in K-12 academic education, arts education, strengthening families and crisis prevention. Other funding areas included housing, disaster response, the environment and emergency funding in response to the economic crisis. Last year, the Foundation extended close to \$1 million in grants to 53 nonprofit organizations in the D.C. metro area, Maryland and Florida. The foundation also made significant grants to groups with activities in several countries, including projects supporting women war survivors in Uganda and Rwanda.

In addition to grants, 2008 was also marked by key changes for the Mead Family Foundation. Founded in 1989 by the late Gilbert Mead and his wife, Jaylee, the foundation came under the management of Arabella Philanthropic Investment Advisors in 2008. Furthermore, the foundation has moved towards granting on a solicited-only basis in an effort to strengthen its impact on the communities it supports.

As with most nonprofits and foundations at this time, the economic crisis has forced the foundation to operate with significantly decreased resources. However, the foundation board and staff are proud to announce that the foundation will be paying out all its multi-year grant commitments.

The Mead Family Foundation looks forward to entering the new year with a renewed dedication to empowering youth to have crisis-free lives, strong families and excellent education.
